What is a cookie?

A cookie is a simple text file sent to your browser via our websites. These are small text files that are placed on your computer by websites that you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide information to the owners of the site.

Why do we use cookies?

Cookies are used to improve your user experience, to enable the operation of the websites, to improve their functioning and to provide information to the site's publishers. We use cookies to ensure the proper functioning of our services and analyze users' navigation on our websites. By continuing your navigation on our websites, you accept the use of cookies.

Which cookies do we use?

- Audience measurement cookies
These cookies anonymously collect information during your visits to our site. Their purpose is to allow the analysis of browsing behavior on the site for optimization purposes.
- Application cookies
These cookies are used to identify users and prevent them from having to re-identify themselves on each page.
- Social media cookies
These cookies are directly used by social media. Sharing buttons via social networks use cookies to track users' browsing.

The table below explains the cookies we use and why:

Name	Description	Explanation
Site language	django_language	This cookie is used to determine which language to display. This is an essential cookie to the operation of the site. It does not store any personal information.
CSRF Token (security)	csrftoken	This is a token used to prevent security flaws. This is an essential cookie to the operation of the site. It does not store any personal information.
Session identification	SERVERID SESSIONID JSESSIONID	These are tokens used to identify your session on our website, to ensure data integrity of your session while transmitting information through our website (access to restricted areas, submission of forms, etc.). These cookies essential to the functioning of the site.
Outscale website cookie acceptance	privacy cookie_notice_accepted	These cookies are set in order to remember preferences in regard to cookies.
Zendesk	__zlcmid _zendesk_shared_session	These cookies are used to help a user in need of assistance. They allow the linking of different support services. These cookies are only used if you have given us your consent for their use.

	_zendesk_session _help_center_session _zendesk_remember_me _zendesk_cookie AWSALB	
Hubspot	__cfuid	Other cookies may be used to profile visitors through the website forms. See https://knowledge.hubspot.com/articles/kcs_article/reports/what-cookies-does-hubspot-set-in-a-visitor-s-browser

You can view Hubspot privacy policy by clicking [here](#).

For more information on how Google processes your personal data, please refer to Google's privacy policy, available by clicking [here](#).

To opt out of being tracked by Google Analytics across all websites visit:
<https://tools.google.com/dlpage/gaoptout?hl=en>.

Cookies used for traffic analysis shall expire automatically after thirteen months. You can delete them manually at any time by using the dedicated option of your web browser.

Your choices regarding cookies

You can oppose the registration of cookies by configuring the preferences of your browser software. Declining cookies may prevent you from accessing certain features of the site.
